### ***m Coy Group expands fixture manufacturing facilities*** Operations move to Parma, Ohio

Parma, Ohio (June. 1, 2012) – m Coy Group llc, a retail fixture and visual merchandising resource firm, announced the new location of its headquarters and manufacturing operations. The new facility in Parma, Ohio will allow m Coy Group to increase its capacity to better serve their retail design accounts in the United States and abroad.

“m Coy Group has built a flourishing business over the years and this has required the acquisition of a larger operating plant.” said Michael Coy, principal of m Coy Group. “The larger building will allow us to improve our manufacturing, assembly and shipping operations with room to expand. The new location also offers us the space to continue growing our customer service, design engineering and project management operations to serve our clients’ needs at the highest level.”

The move to the Parma location was completed in May with the entire m Coy Group team contributing to another outstanding logistical ballet that resulted in no operational down time or project delays.

#### ***About m Coy Group llc***

m Coy Group works with retailers and retail designers to engineer and implement store fixture packages, visual merchandising displays and décor packages - worldwide. m Coy Group serves client needs from prototyping to rollouts.
